01

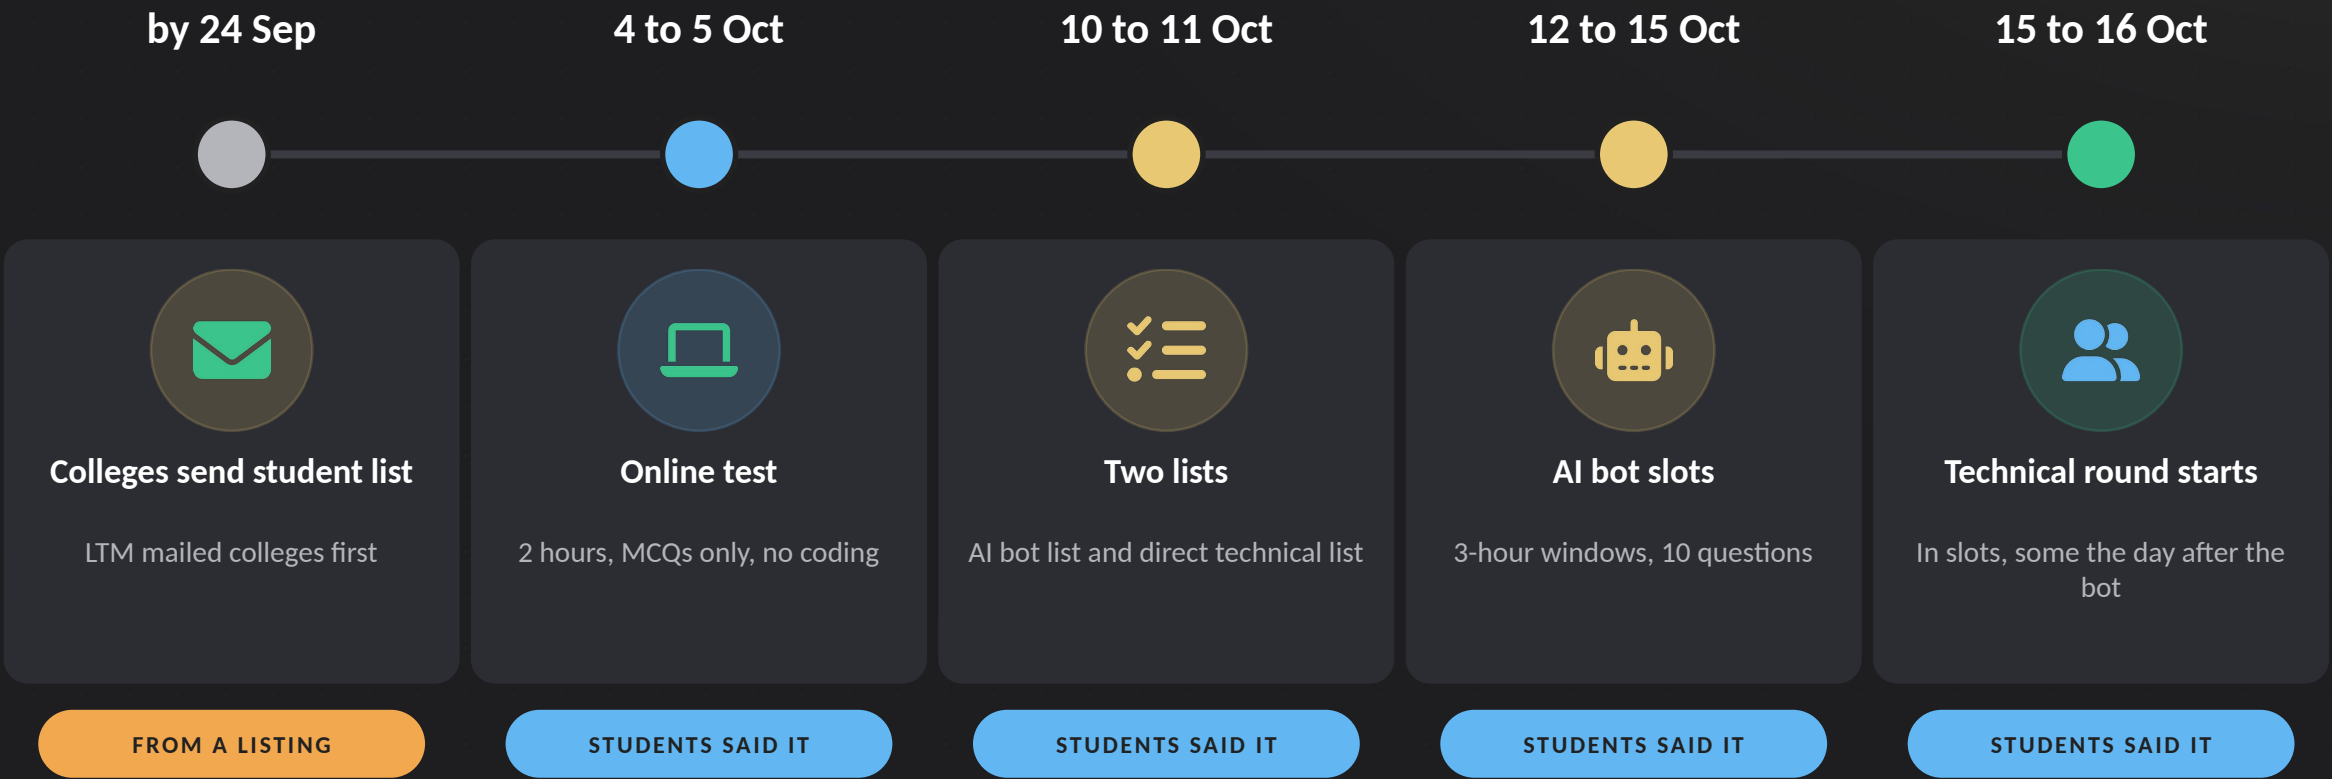

Aaj aap kahan ho

This year's drive for the 2027 batch: from the college mail to the technical round that starts this week.

This year so far

STUDENTS SAID IT

No bot mail does not mean rejected. One college: 483 of 1,500 got a mail. Some colleges sent students straight to technical, with no bot.

Dates from student comments, 24 September to 15 October 2026. The college mail details come from a listing that quotes it, not from the mail itself.

Which role, and who can apply

FROM A LISTING

**B.E, B.Tech, M.E,
M.Tech, MCA, 5-
year M.Sc**

All engineering branches. M.Sc only CS and IT. Regular courses only

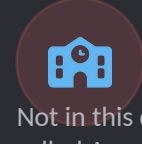

**65% marks
throughout**

10th, 12th, diploma if any, degree and PG. Last year it was 60%

INR 4,05,233 a year

Graduate Engineer Trainee, 2027 pass-outs

BCA, B.Sc, BBA

Not in this drive. Three-year degrees get a separate drive called Associate Trainee. The last one was for 2024 to 2026 batches. No 2027 notice yet.

NO OFFICIAL ANSWER

No bond

No service agreement. No pending backlogs. Gap of at most 2 years

Anywhere in India

Any LTM office

**The mail is not a
yes**

The link comes through your college. Getting it does not mean you are eligible

LTMindtree is now called LTM

The name changed between February and April 2026. Same company, same offers. CEO: Venu Lambu, since May 2025.

LTM SAID IT

Role, marks and pay: a listing dated 21 September 2026 that quotes LTM's mail to colleges. Check with your placement cell. Name change: board 11 February, certificate 17 March, stock exchange 17 April 2026.

The bot this week, as students describe it

STUDENTS SAID IT

10

questions: your intro, then 9 from your resume

35 min

one student's full session

4 to 5 s

to think before each answer

“

"The interview began with a self-introduction question. The next nine questions were strictly drawn from my resume: my projects, my listed certifications, core computer science fundamentals and my technical stack. Overall it was totally resume based."

Student, bot on 13 Oct 2026, 3 likes

Register first, upload your resume

Slot mail comes 1 to 2 days before

Questions are read out and shown on screen

Headphone rules: many asked, no official answer

Coding? The PDF says no, the mail says yes

Last year: one easy task, print even numbers

Sessions can crash

"Test closed after my intro, status completed", 6 likes

Student reports under 12 to 14 October 2026 videos. The bot is LTM's own HR AI tool, called RAlma; the interview engine behind it is named Berribot in LTM's case study.

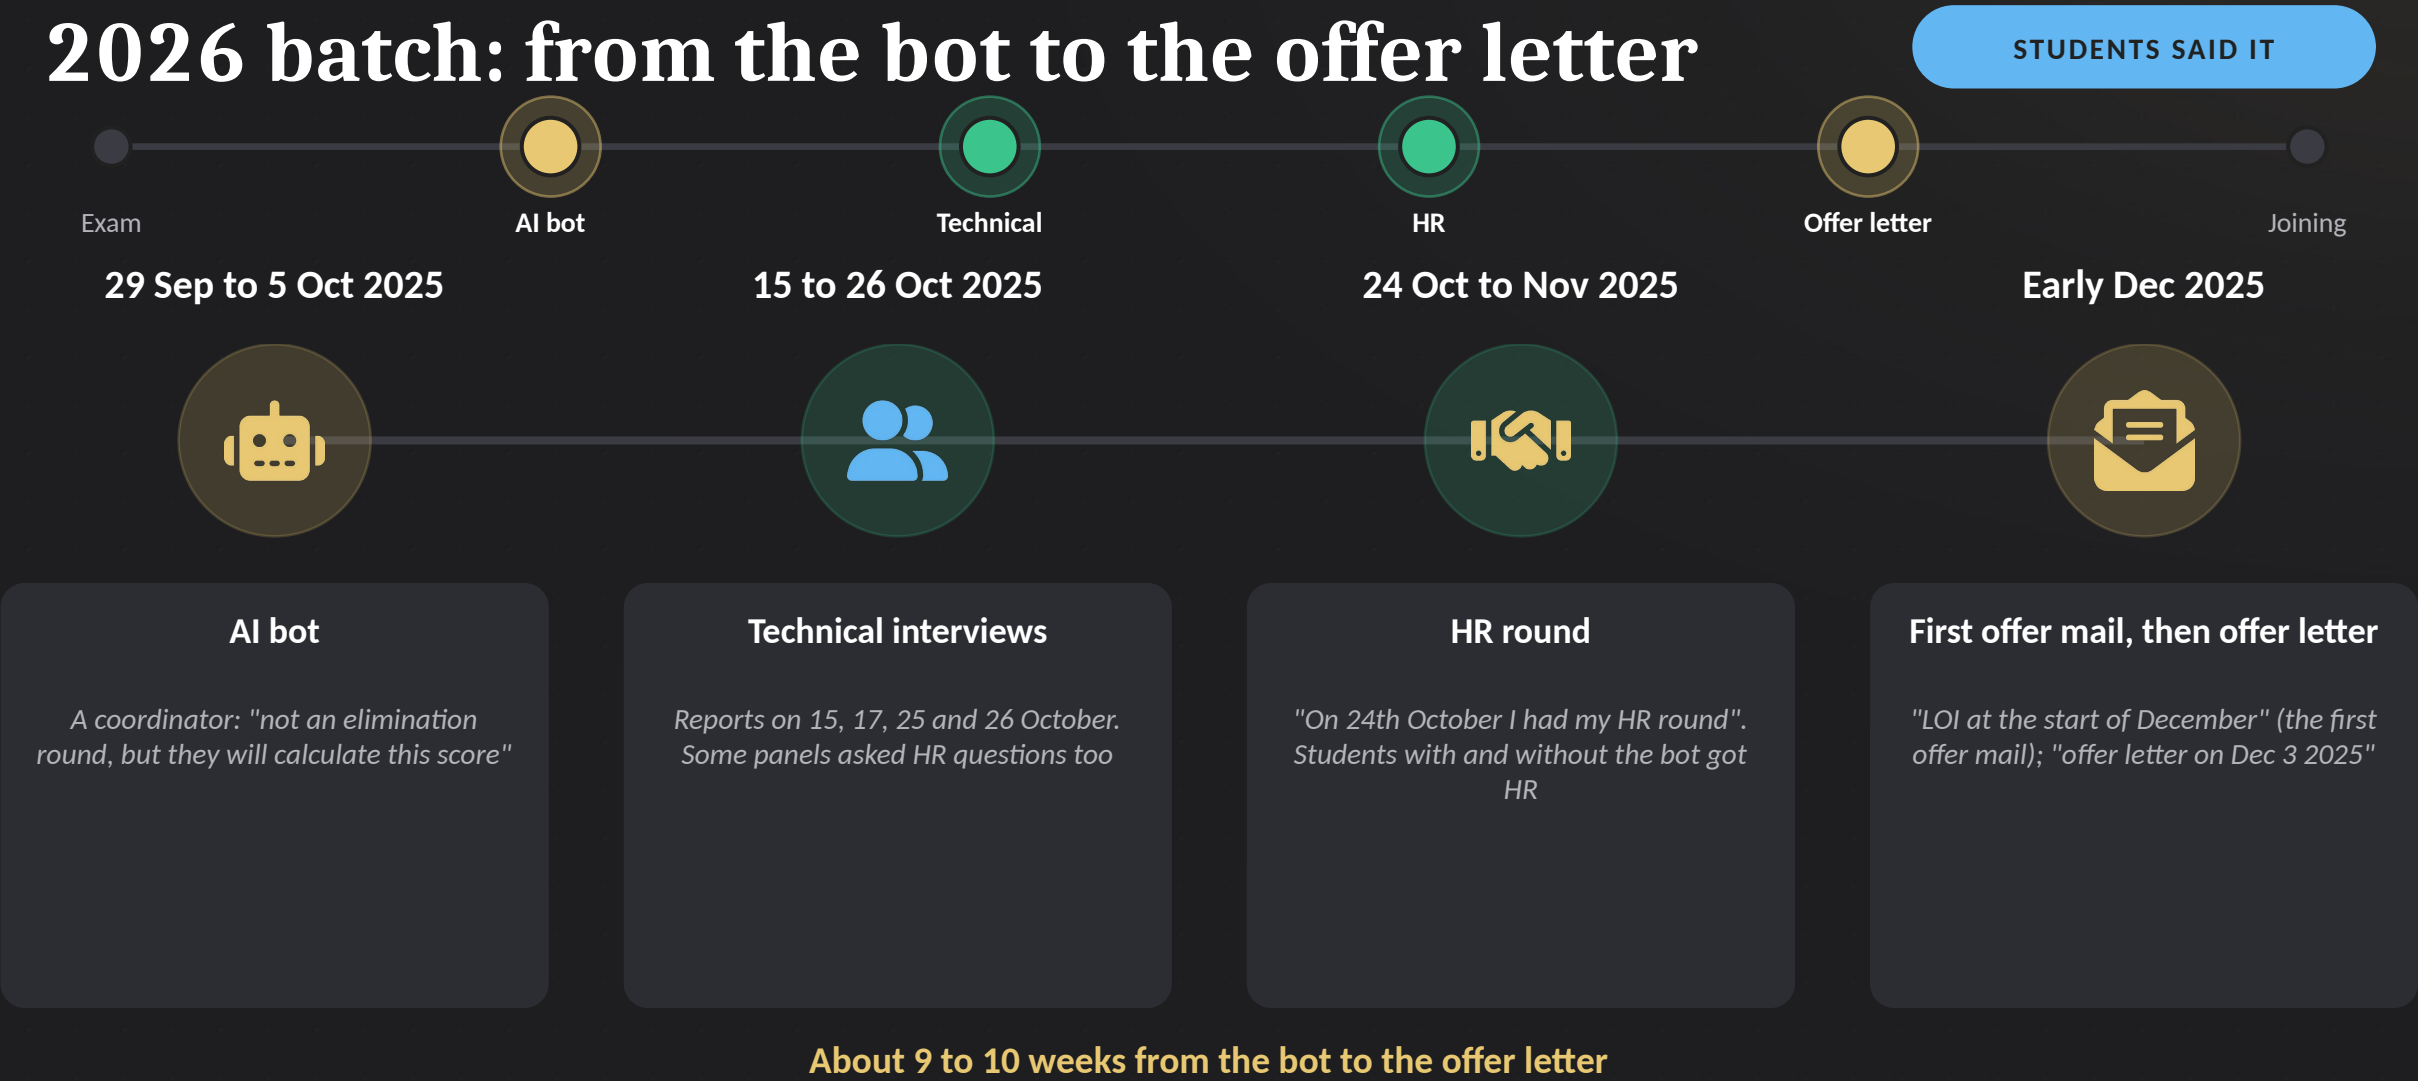

02

Bot ke baad, pichhle saal exactly kya hua

The 2026 batch gave the same bot in late September 2025. Here is their year, date by date, from their own comments.

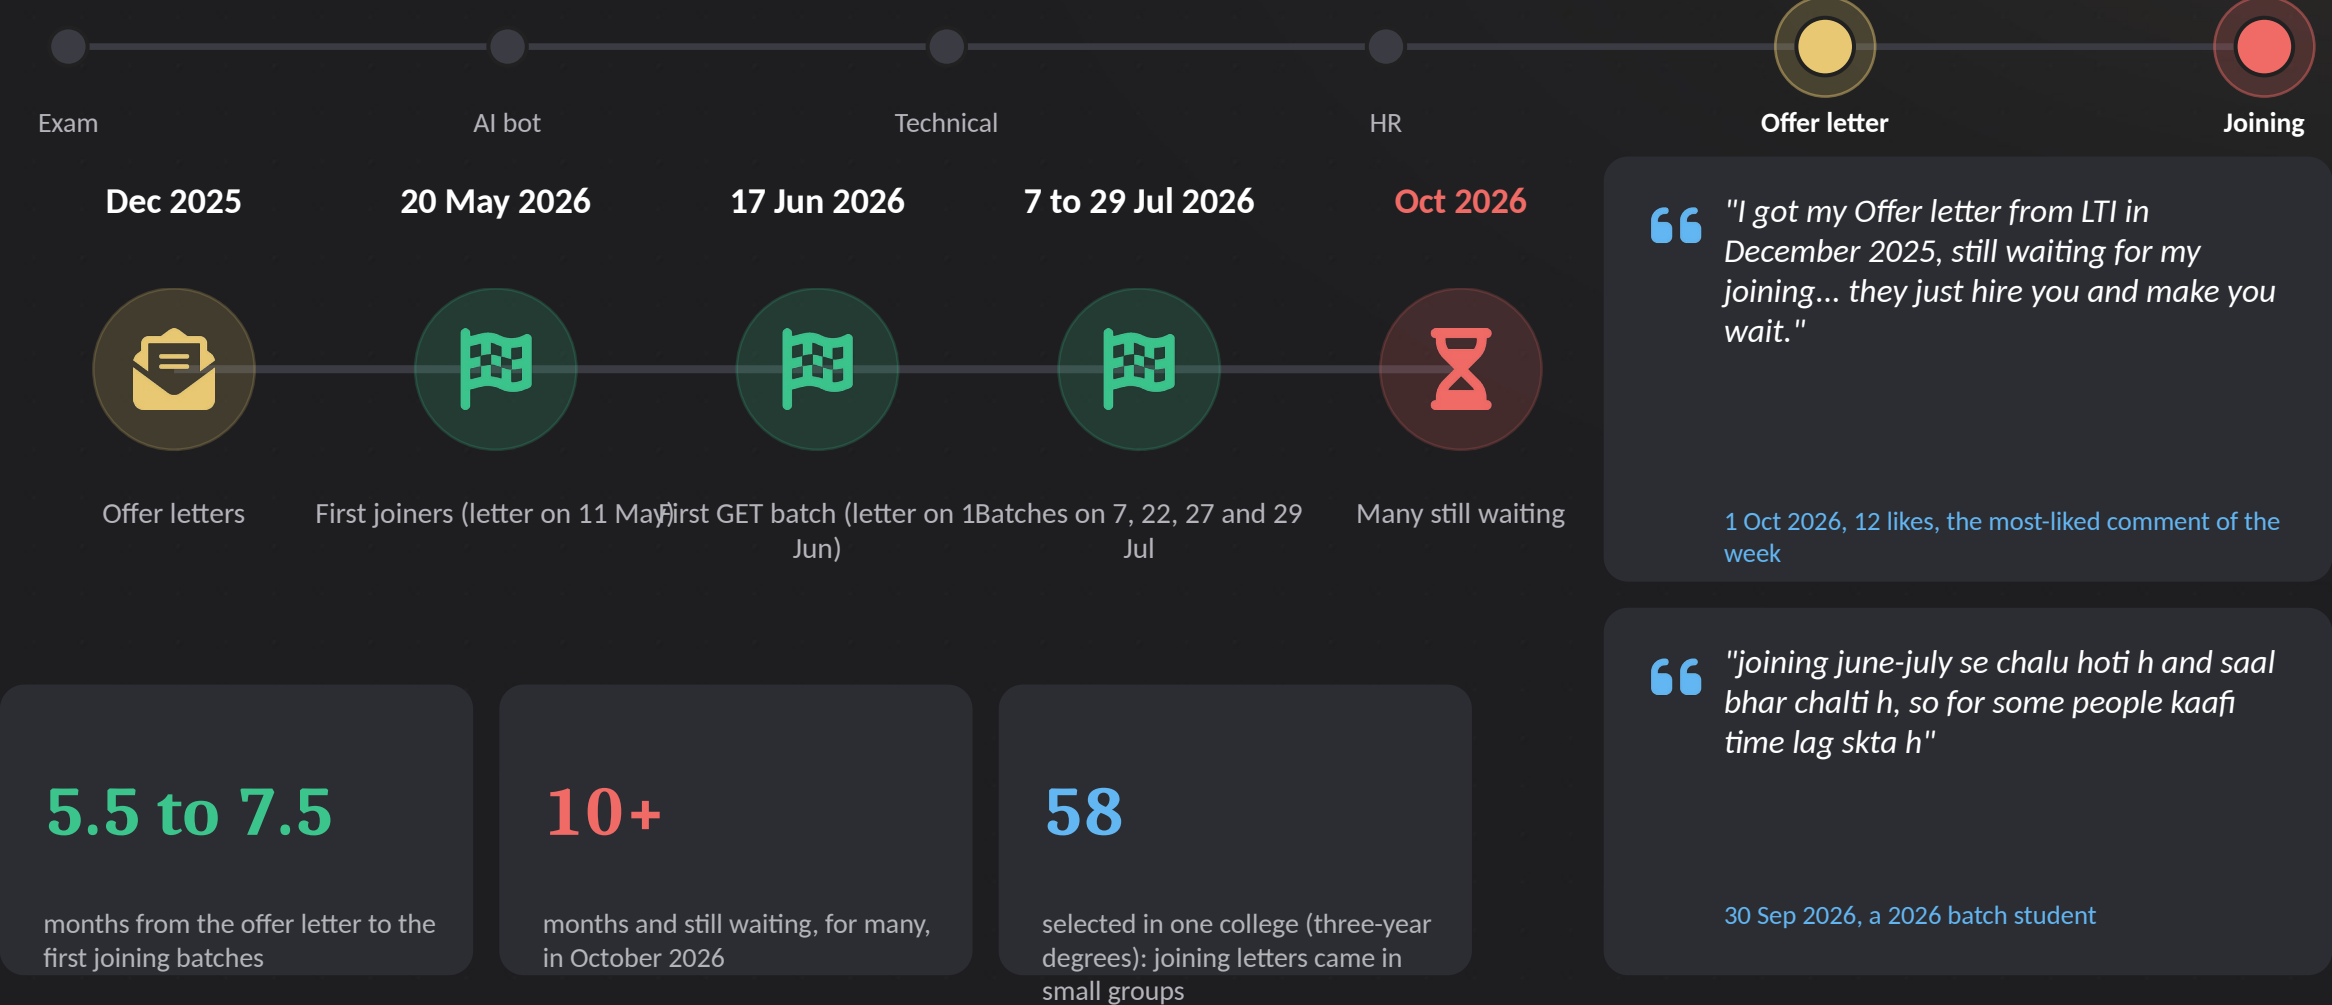

2026 batch: from the bot to the offer letter

Student comments and dated reports, September to December 2025. Every date is from a student; LTM publishes no calendar.

2026 batch: from the offer letter to joining

Joining dates from student posts in June and July 2026. People still waiting cannot report an end date, so these waits are the minimum, not the average.

Days between each step, three batches

STUDENTS SAID IT

Offer letter to joining

9 to 18 months

2025 batch: training mails Sep 2025, first day Jan 2026, some waiting Jun 2026

5.5 to 7.5 months

2026 batch, first batches. Many at 10+ months and still waiting

2027 batch

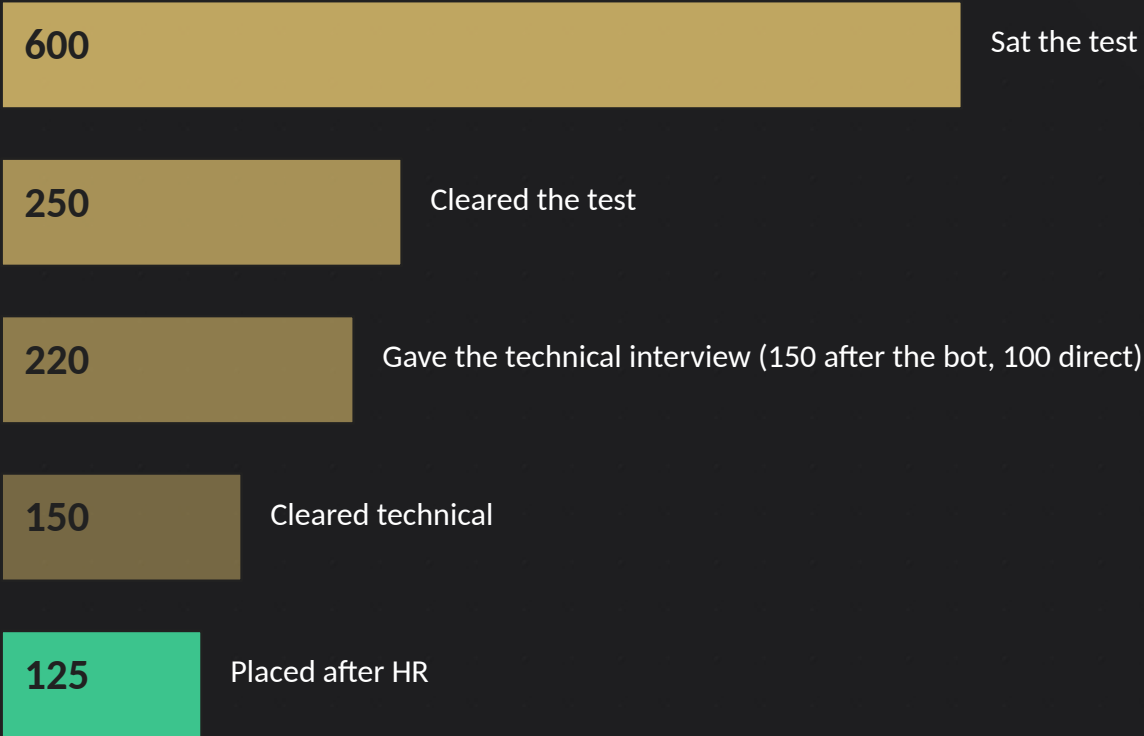

not before you graduate, mid 2027

* 2024 had no bot: shortlist mail 27 Sep to technical 23 Oct. Bars show the middle of each range. Every exact date is on the last slides.

Each bar is one or more students who posted both dates. Where only one person reported a gap, it is that one case.

How many cleared each round

One college, 2027 batch (September 2026 drive)

150 students had a bot slot. 120 cleared it (80%). Another 100 went straight to technical.

STUDENTS SAID IT

500 → 250 → 155 → 125

Another college, same drive

670 → 440 had the bot

One college, Oct 2025. The rest went direct

132 → 60

Technical to HR, Nov 2025 (45%)

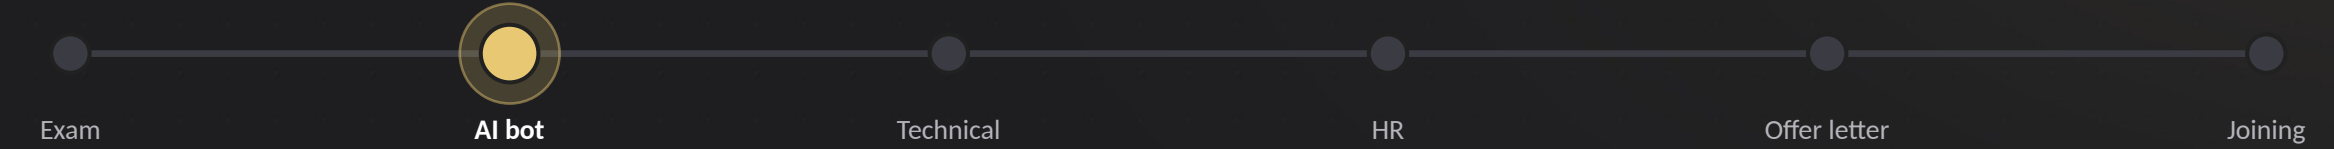

113 → 76

HR to selected, Dec 2024 (67%)

Five colleges' counts, posted by their students (Dec 2024, Oct and Nov 2025, Sep 2026). Each is one college, not LTM's national numbers.

Is the bot an elimination round?

NO OFFICIAL ANSWER

What says "the score counts, but it is not a gate"

- A coordinator, Sep 2025: "not an elimination round but they will calculate this score"
- 120 of 150 bot-takers got a technical call in the one college with numbers
- No bot slot? "You will give direct technical interview" (Nov 2025). Two lists again this week

What nobody official has said

- How the score is used. The bot writes a report; one 2025 student saw "not recommended for the job" in it
- Why some students get a bot slot and others go direct
- Whether a crashed session counts. Students report technical calls anyway

Our best guess: the bot score counts, but the bot alone does not end your drive. Most who gave it moved on; one in five did not. The technical round decides.

OUR BEST GUESS

Comments under videos from 27 Sep to 16 Oct 2025 and 10 to 14 Oct 2026. LTM has said nothing about how the bot score is used.

03

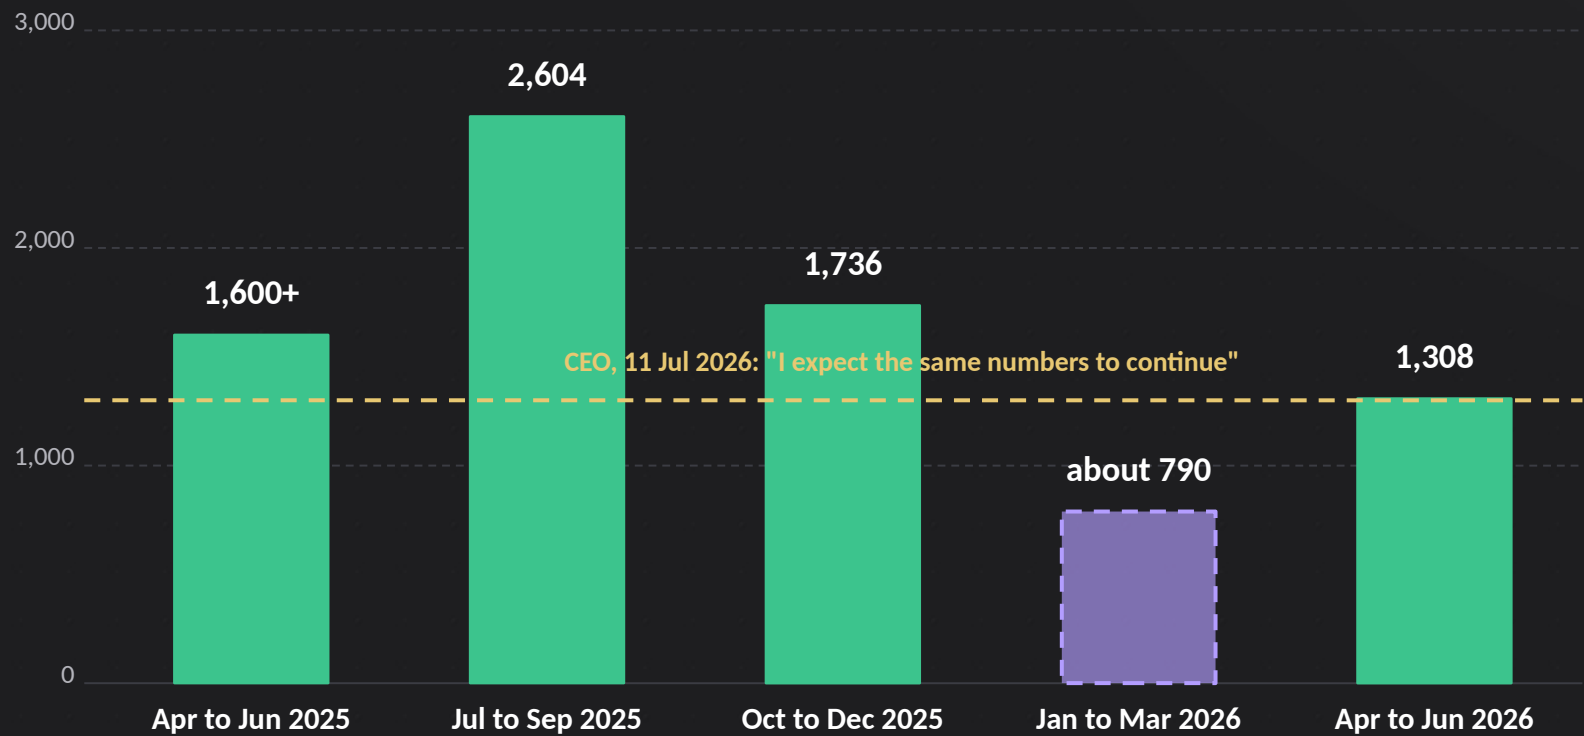

Company khud kya keh rahi hai

How many freshers joined LTM each quarter, in the company's own words, what happened in 2023, and the results due tomorrow.

Freshers who joined LTM, quarter by quarter

LTM SAID IT

Dashed bar: worked out from the yearly total of 6,729 minus the three quarters LTM gave

6,729

freshers joined in the year to March 2026. The plan was about 5,000

87,886

total employees on 30 June 2026. Flat for three quarters

1,300

a quarter is the pace the CEO expects to continue

LTM results calls: 17 Jul 2025, 16 Oct 2025, 19 Jan 2026, 23 Apr 2026, 11 Jul 2026 (CEO Venu Lambu: "We added 1,300+ freshers this quarter, and I expect the same numbers to continue"). The 5,000 plan: HRKatha, 23 Jul 2025.

What happened in 2023, when the wait broke

NEWS REPORT

Mar 2022

Offer letters

One fresher: "I received the offer letter in March 2022". Off-campus recruits got a Rs 10,000 a month internship meanwhile

Apr 2023

A new condition

Join a 6 to 7 week training called IGNITE, then score above 60% in a test

12 Apr 2023

Reply, or lose the offer

No reply or a "no": the offer "will stand auto-cancelled"

600 to 700

freshers affected, per Business Standard, 9 Apr 2023

13+ months

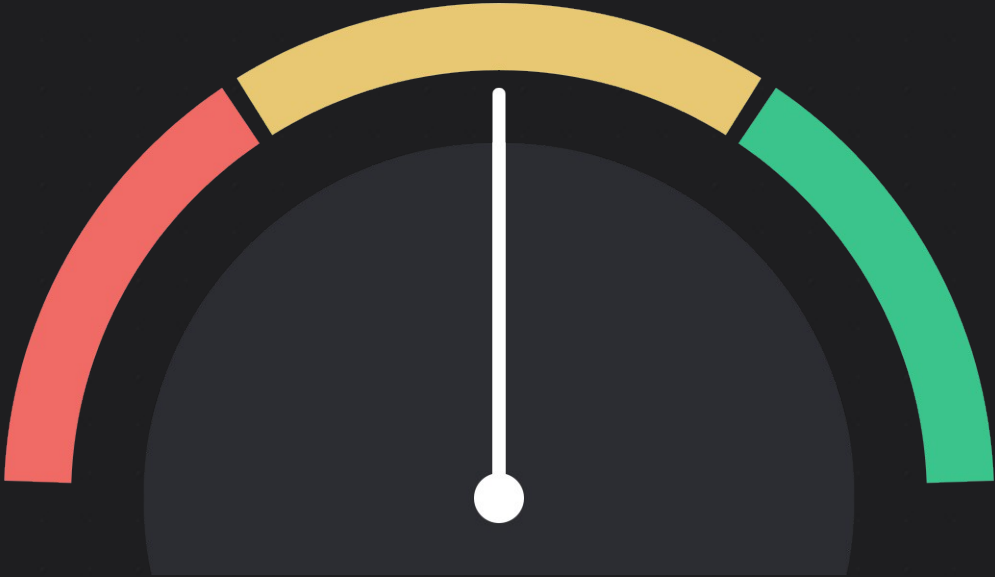

from those offers to the new condition

Nothing like this has been reported for the 2025 or 2026 batches.

Business Standard, 9 April 2023 (Shivani Shinde): "LTIMindtree delays onboarding and extends training for assessment. Move will impact 600-700."

Tomorrow, 16 Oct 2026: watch one number

OUR BEST GUESS

Freshers who joined, July to September 2026

LTM's board meets on 16 October 2026 for the July to September quarter. The results call is the same day.

Below 1,000

Longer waits ahead. More "still waiting" posts. Keep every other drive alive.

Around 1,300

The pace the CEO expects. The 2026 batch clears slowly; the 2027 batch joins after it.

Well above 2,000

Joining mails for the waiting 2026 batch should show up in the comments within weeks.

Meeting date from the stock exchange notice, reported 8 October 2026. The three readings are ours, not LTM's. The last five quarters: 1,600+, 2,604, 1,736, about 790, 1,308.

04

Ab aage kya hoga

What the last two years say about the next eight months, with a how-sure meter on each step. Best guesses, not promises.

What comes next, step by step

An offer letter is not a joining date. LTM takes in about 1,300 freshers a quarter, across the whole company.

Worked out from the 2025 and 2026 batch dates and LTM's stated fresher pace. A bigger number tomorrow would pull joining earlier; 2023 shows it can also go the other way.

Sach vs Afwah this week

"Fail the bot, you are out"

NO OFFICIAL ANSWER

No official rule. One in five bot-takers missed technical in one college; others got technical with no bot at all.

"There is coding in the bot"

PARTLY TRUE

Last year, one easy task. This year the PDF says no and the mail says yes. Follow your mail.

"Technical starts 15 October"

STUDENTS SAID IT

Several students have 15 and 16 October slots; one got technical the day after the bot. More slots follow.

"Offer letter in two weeks"

NO OFFICIAL ANSWER

Both years it took 3 to 8 weeks after HR and landed in December.

"Joining right after the offer"

NO OFFICIAL ANSWER

The 2026 batch waited 5.5 to 7.5 months for the first batches; many are at 10 months.

"LTM cancelled 2026 offers"

NO OFFICIAL ANSWER

A June 2026 rumour video. No report, no filing, no dated student post backs it.

The claims repeated most in this week's comments and video titles. The answers rest on the student dates and the official numbers in Parts 2 and 3.

05

Ab kya karein

Six things to do this week, all taken from the data. Nothing here depends on luck.

What to do this week, in order

OUR TIP

Prepare for technical, not the bot

Students were asked: OOPs, DBMS and SQL, OS and networking basics, every line of your projects, and one or two easy coding tasks. 20 to 45 minutes.

Check three places every morning

Inbox, spam and promotions, the email you registered with, and your placement cell. Lists came through colleges, not only by mail.

Bot crashed? Write today

Mail the coordinator with the time and a screenshot. Students still got technical calls, and a written record protects you.

Keep every other drive alive

"They just hire you and make you wait" (12 likes, a 2026 batch student). TCS NQT and CodeVita, Infosys, Capgemini and IBM are open now.

Keep your documents ready

10th, 12th, all marksheets, ID, PAN. Last year a document request came with a one-week deadline.

Watch 16 Oct and the comments

Tomorrow's fresher number, then the first "got my technical result" and "got HR mail" posts. That is your real calendar.

Technical topics: student reports, October 2025 and September to October 2026. Open drives: Classic Jobs, 15 October 2026.

What we looked for and could not find

NO OFFICIAL ANSWER

Any LTM document on how the bot score is used

LTM's case study names the tool. Nothing says what a score does to your application.

An official joining calendar for the 2026 batch

Only student posts of their own joining dates, and "still waiting" posts into October.

A 2027 drive for BCA, B.Sc and BBA

None by 15 October 2026. The last one was for 2024 to 2026 batches, in February 2026.

Instagram Reels, Glassdoor and Naukri experiences

Our tools could not read them. YouTube Shorts (79) are in the data.

The fresher number for July to September 2026

It comes tomorrow, 16 October 2026. This deck gets it the same day.

Where there is no official answer, this deck says so, and so should the video: "confirm nahi hai".

Apna experience group mein batao

Your technical date, HR date and offer date help the next 1,800 students see the real timeline. Names are never shared. Every number and source: classictechnology.in/articles

when offer letters came in both previous years. Mark it, then keep applying.

The full report

classictechnology.in: every number and source, plus this deck as a PDF.

Appendix A: every gap, every date

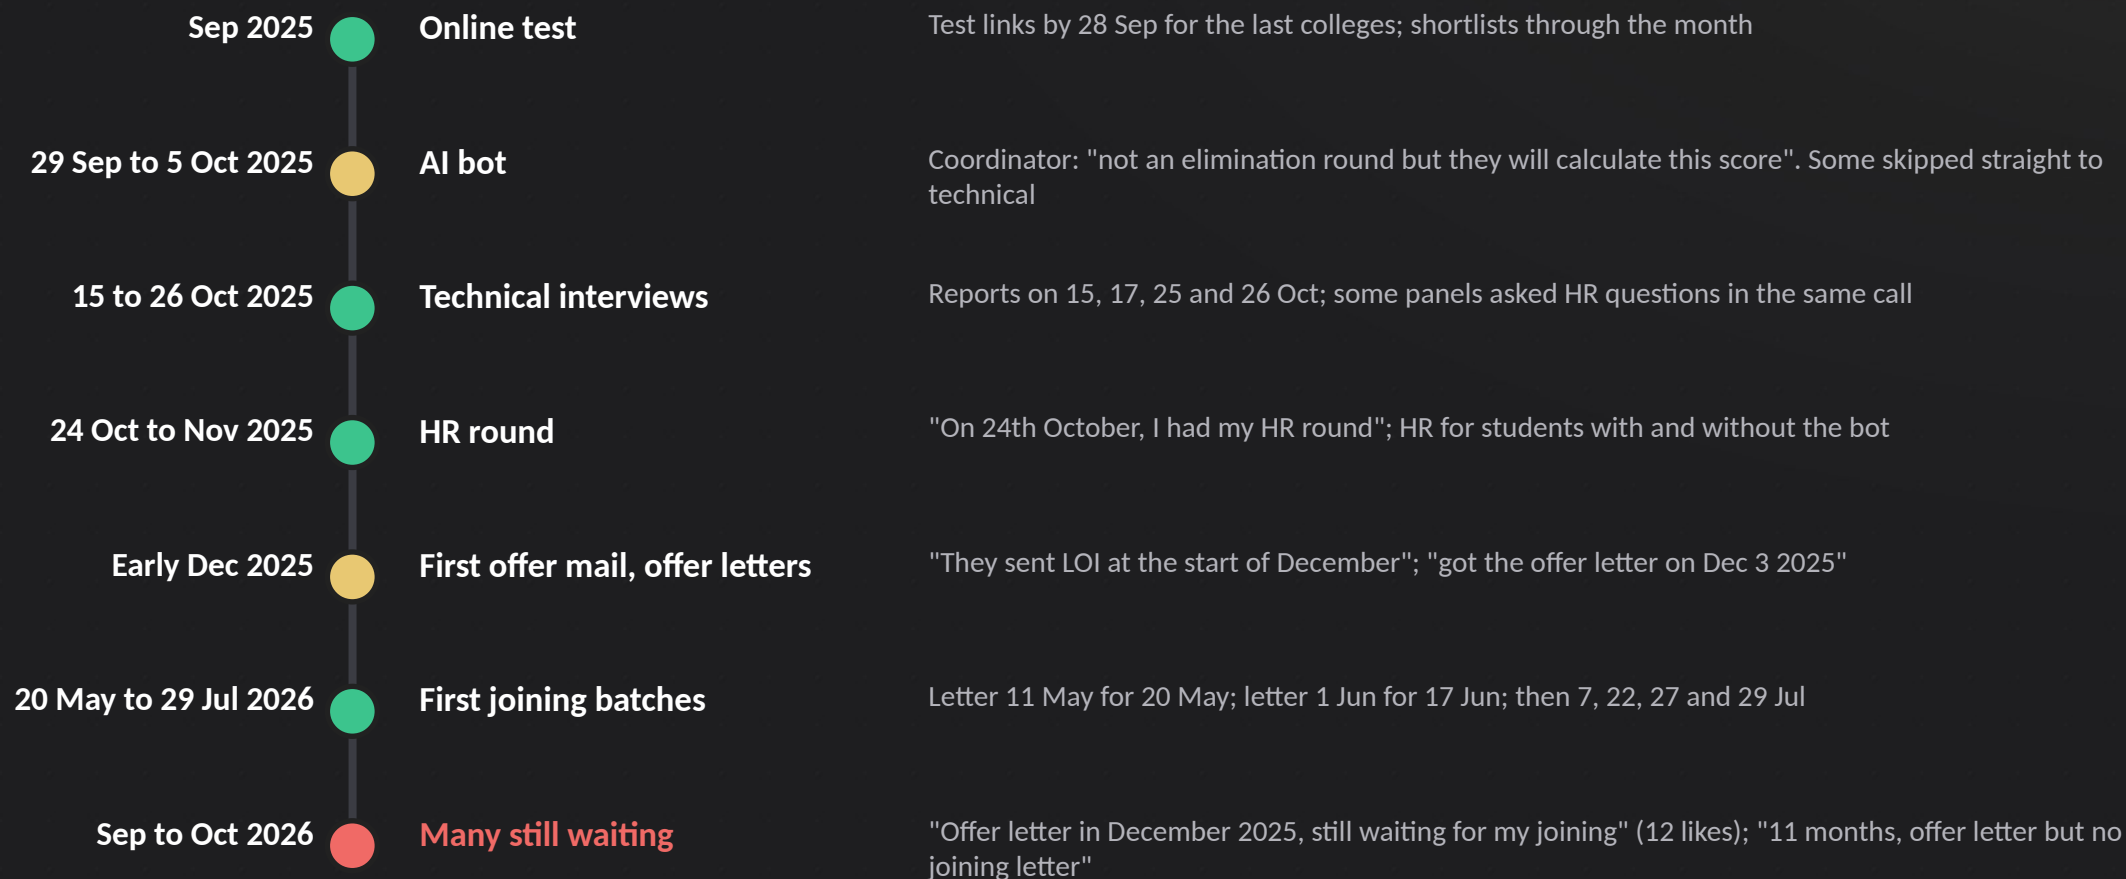

STUDENTS SAID IT

Step	2025 batch (2024-25)	2026 batch (2025-26)	2027 batch (so far)
Test to shortlist	52 days (8 Sep to 30 Oct 2024)	1 to 3 weeks (mid to late Sep)	6 days (4 Oct to 10 Oct)
Shortlist to AI bot	no bot that year	2 to 7 days	1 to 4 days
AI bot to technical	shortlist 27 Sep, technical 23 Oct: 26 days	10 to 21 days (bot 29 Sep to 5 Oct, technical 15 to 26 Oct)	1 to 3 days (bot 12 to 14, technical from 15 Oct)
Technical to HR	6 to 10 days (4 to 10 Mar; 15 to 25 Mar 2025)	9 days (15 Oct to 24 Oct); some in the same call	not yet
HR to selection list	4 days partial, 10 to 12 days full (one college)	selection mails through Nov	not yet
HR to offer letter	26 Oct to Dec: 5 to 8 weeks; 27 Feb to 22 Mar: 23 days	late Oct to 3 Dec: about 5 to 6 weeks	not yet
Offer letter to joining	9 to 18 months (training mails Sep 2025, first day Jan 2026, some waiting Jun 2026)	5.5 to 7.5 months for the first batches; 10+ months and waiting for many	not yet

Each cell is one or more students who posted both dates. Offer-to-joining waits include people who had not joined when they wrote, so the true figures are longer.

Appendix B: last year, with the quotes

STUDENTS SAID IT

Student comments and dated video reports, September 2025 to October 2026; joining batches from student posts in June and July 2026.

Appendix C: sources

LTM SAID IT

1

LTM results-call transcripts (ltn.com): 17 Jul 2025; 16 Oct 2025; 19 Jan 2026; 23 Apr 2026; 11 Jul 2026. Q1 FY27 investor factsheet, Jul 2026.

2

Business Standard, 9 Apr 2023: LTIMindtree delays onboarding and extends training for assessment (600 to 700 affected, IGNITE, 12 Apr deadline).

3

Outlook Business, 11 Feb 2026: LTIMindtree rebrands as LTM; new certificate of incorporation 17 Mar 2026; stock exchange name change 17 Apr 2026.

4

HRKatha, 23 Jul 2025: plan to onboard about 5,000 freshers in FY26. GlobalCIO case study, 5 Nov 2025: RAIma, LTM's HR AI tool; interviews on BerriBot.

5

Tech6Sense, 21 Sep 2026: the 2027 Graduate Engineer Trainee listing quoting LTM's mail to colleges (INR 4,05,233; 65%; no bond). 5paisa and Goodreturns, 8 Oct 2026: board meeting 16 Oct 2026.

6

YouTube Data API, 15 Oct 2026: 325 LTM videos from 125 channels (Jun 2024 to 15 Oct 2026), 3,641 comments and replies from 1,821 people, author ids hashed at fetch time. No other channel is named or quoted anywhere in this deck.
